BEACON
DIAGNOSTIC ULTRASOUND

HOW TO REFER A PATIENT

A simple referral process for your practice and your patients.

01 COMPLETE THE ULTRASOUND ORDER

The ordering physician or authorized provider completes and signs the appropriate ultrasound order using their practice's order form or a Beacon-provided order form. Give the completed order to the patient.

02 PATIENT CONTACTS BEACON

The patient calls or texts Beacon at (252) 542-4039 to arrange an appointment. Beacon will explain scheduling, pricing, and how to securely provide the signed order before the examination.

03 BEACON SCHEDULES & PERFORMS THE EXAM

Beacon coordinates the appointment and performs the ordered ultrasound at the patient's home or a participating medical office. Images are securely transmitted to our partnering radiology group for interpretation by a board-certified radiologist.

04 FINAL REPORT TO THE ORDERING PROVIDER

The radiology group completes the final interpretation and securely sends the report to the ordering physician or healthcare provider. Routine report turnaround is typically 24–48 hours.

NO REFERRAL PORTAL. NO ADDITIONAL PAPERWORK.

Evening & weekend appointments | In-home & participating-clinic services
